Electives	* Photography								Supplies for this course can found on at the bottom of the supply list.		Tissues
Electives	Public Speaking								Index Cards, Notebook exclusive to class		Tissues
Electives	Robotics								Composition Notebook		Tissues

[illegible]

*** Photography**

- ☐ 64 GB or 128 GB or larger memory card (A high capacity "HC" memory card is recommended)
- ☐ Mirrorless camera or DSLR camera (The camera **must** have a detachable lens)

A mirrorless camera or DSLR can be bought at stores such as Best Buy, Target, Wal-Mart or on online stores such as B&H Photo, Amazon, and Adorama. If you go into any of the listed stores, they should be able to tell you exactly what you need. However, I have included a list of specific cameras that you could get to give you an idea of what you are looking for, but you are not required to get one of these specifically.

Canon Mirrorless: Canon Mirrorless R50 or R100 OR Canon DSLR: Canon Rebel T7 or T7i, Canon Rebel SL1.

Nikon Mirrorless: Nikon Mirrorless Z50 OR Nikon DSLR: Nikon D3500, Nikon D7500.

Most cameras come with a standard lens (18mm-55mm), but some stores will do a kit package with a zoom lens and camera bag if you want to purchase the extras. The zoom lens (55-200mm) is great for sports.
